

IPS Smart Edition set with continuous charging

Interactive Playsystems

The IPS set with continuous charging is ideal for indoor play areas and entertainment centers. Because all spots have a power cable that is connected to a power adapter, you do not have to disconnect the spots to charge them. Thanks to the constant power supply, the playsystem is always ready for use! The scoreboard can both run on battery and be connected to the power adapter.

Complete set with a large cord length

The spots are each equipped with a 2.5 m cord, which offers enough space to place the spots randomly in the space chosen. The IPS set is also supplied with a scoreboard and a clear manual. Everything is supplied in a handy case. So you have everything complete for a fantastic experience!

Specifications and warranty

The IPS scoreboard and the IPS spots are both wired. There is a radio connection between the scoreboard and the spots. The standard set consists of 10 spots, this can be expanded to a maximum of 20 spots. The IPS set comes with 1 year warranty. Buy this multifunctional IPS set and give your customers the day of their lives!

More than 15,000 customers also chose JB.
