

IPS Trampoline Wall

Perfect for indoor playgrounds !

These IPS Trampoline Walls are a perfect addition to indoor playgrounds. They are easy to attach with the hanging hooks on the back. This makes it very easy to create an interactive play corner with allows to play many different games. Hang them for example on a trampoline and children can play the game while jumping! The set includes a blue and red Trampoline Wall, so that players can compete against each other.

Airtight, so no constant power supply required

Because the Trampoline Walls are airtight, they do not have to be connected to a constant blower. Handy, because then you just have to be inflated with the supplied blower and hung up! You can of course buy the IPS system from us. In the Trampoline Walls there are 12 spot holders in total.

Top quality, therefore, sustainable

JB products have been strengthened and welded on seams. The strong, high quality PVC is easy to keep clean. We supply these durable inflatables with a 5-year warranty.

Buy this IPS Trampoline Walls and create a unique play corner in your park!
