

Promo Dome Tent – Connection cloth

Flexible and quick installation: The Promo Dome Tent Connecting Cloth

Our Promo Dome Tents are ideal for promotional activities indoors and outdoors in the open air. The inflatable tents are easy to set up by one person in about 10 minutes. The Promo Dome Tent is open on four sides. Using a connecting sail, each side can be linked to another Promo Dome Tent. These sails are custom-made for the different versions of the Promo Dome Tents.

Flexible setup: linking, closing, and with a roof

Zippering in the connecting cloth between 2 Promo Dome Tents is simple and can quickly be done by one person. It is also possible to install side walls with or without windows and side doors. These sails can be supplied in your style or with a print or colour. Connecting tents or attaching sails is always done with a handy zipper. Contact our sales department for more information!

Easy to pack and transport!

The Promo Dome Tent comes with a handy bag with wheels and handles, which you can easily transport, even in the back of your car. The tents also come with anchor bags, which you can fill with sand or water and which can be easily attached to the tent legs.

These tents can even be used in places without power points when you purchase a separate battery. In short: with the Promo Dome Tent, you have an easy-to-set-up and flexible-to-use canopy that is suitable for promotional activities but is also an ideal tent during parties or open days.
