

# Bowling XXL

## Strike! Even better! Mega strike!!

Does your customer has a hexathlon planned, or any other sporting event? Maybe a town event, neighbourhood party or a teambuilding event? Why not recommend using this XXL bowling set as one of the attractions? The aim of the game is to use the giant inflatable ball (1.5 meters in diameter) and knock down the (also) inflatable pins, which stand an incredible 3.5 meters tall. Alternatively, you could also recommend using a so-called zorb ball that can fit a person inside. It is quite the experience, because the players have to get the ball rolling themselves. It goes without saying that knocking down as many pins as possible is what it's all about. Let's face it, it's regular bowling with rather a large twist.

## Start XXL bowling within 10 minutes

The mega-sized bowling set is very easy to set up. In total, it will take less than 10 minutes to inflate the ball and pins. It comes with a manual, a blower and a transport bag. That is what JB-Inflatables is known for: we supply the complete package.

## A 5-year warranty on our premium quality

All our inflatables have several reinforced tension points and are multiply stitched. This large bowling set is no exception! Because they are made of strong, high-quality PVC, the items are durable and easy to keep clean. In addition, we provide a 5-year warranty and a repair service for all inflatables in our extensive collection.

Purchase this XXL bowling set to add to your collection of hexathlon items and deliver festive times to enjoy.
