

Bouncy Tube Blue

Hop, hop, hop: all together now

A classic game in our hexathlon collection: bouncy tubes! Suitable for kids' parties, and parties organized for your neighborhood or village and a variety of teambuilding activities. The players (a maximum of four in total) sit on the tube and have to try and bounce their way to the other side of the track. It goes without saying that walking is 'strictly' forbidden. Like the name suggests, participants have to hop in pairs, or with three or four players to make it across the finish line. Besides being a wonderful workout and a perfect way to train your coordination skills, its main benefit is the fun it provides! The inflatable bounce tubes by JB-Inflatables are available in red and blue.
