

IPS Gel Ball Airtight Obstacles

Inflatable IPS obstacles

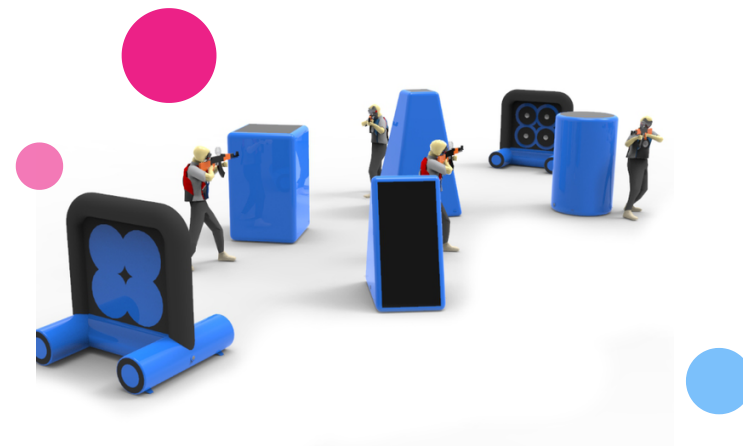

These inflatable IPS obstacles provide even more fun when you start shooting at each other with your IPS Gel Balls. Place them in a battle arena or wherever you have the space. Now you can shoot each other and hide behind the obstacles. This makes your interactive game even more challenging. You can also shoot at two of the inflatable IPS obstacles. The IPS spots indicate when you hit the bull's eye. Compete in two teams and decide who will be the winner of your epic battle.

Newly developed IPS system

The inflatable IPS obstacles are part of our newly developed IPS system. We combine our inflatables with interactive game elements. This makes playing with our inflatable attractions an extra cool experience. These obstacles make your interactive battle even more awesome! And rest assured, they can take a hit. They are airtight, so you don't have to worry about shooting them leaking. So don't hold back and start fighting!

JB Inflatables offers the best quality and service

JB Inflatables works with the best people and the best materials. Our inflatables are therefore of excellent quality. And is there something wrong with your inflatable? Then our professional service team is ready for you. We offer a guarantee on the material and finish of our inflatables. From design to delivery: we have everything in-house to deliver you the most beautiful inflatable!
