

Table Airball

Balls floating through the air

A unique game launched by JB: Air Ball! The constant flow of air from the cones allow the balls to float. The aim of the game is to move the ball from one cone to the next to ultimately blow it in the basket at the end. Who will succeed in getting all balls to the other side without causing them to drop? The player who has been able to gather all balls into the basket wins the game. This game is fun to play as a team, but one on one is also an option. Let those balls fly!
