By adding an extra component to an inflatable obstacle course, you can quickly create a unique challenge course. The more elements you have, the longer the obstacle course. You can expand the parts on, among others, the 13.5- and 19-meter courses. By combining and merging them with a JB obstacle course, you create your unique inflatable challenge course. All obstacle course elements come complete with a blower. Made of high-quality PVC material, it's easy to clean and suitable for many users. Enjoy years of fun with your bounce house obstacle course!
