

Triangle island red/blue/white

Play on and in the water

This airtight water attraction is the perfect addition to any pool. Climbing, running, jumping - use this Triangle Island for whatever you want! This play island quite easily fits in every pool and because it is airtight, no constant air supply is needed. This means the attraction only has to be inflated once for the fun to start!

Safe to use

JB develops and manufactures attractions that can safely be used by all players. All water games we offer are certified in accordance with the NEN-EN 15649:2009 safety and quality standards. That is why we provide an approved inspection certificate, a log book and a clear manual for every water attraction. In addition, all products come with a Bravo air pressure gauge to ensure the right air pressure is entered. The anchor points have to be fastened with appropriate anchoring materials to keep the product in place and prevent it from floating off or getting too close to other objects. We have thought of it all. It is everything you need for a fantastic experience.

High-frequency welded

JB sets very high demands for its products. In order to guarantee their quality, we use selected high-frequency welded PVC material, weighing 900 gr/m². The material is strong and colorfast, which makes our products durable and easy to keep clean to boot. The airtight Triangle Island comes with a 1-year warranty.

Purchase this fun play island for use in the pool and deliver the experience your customers will remember as a fantastic day of water fun!

More than 15,000 customers have led the way

Do you know why our customers tend to call us 'creators of greatness'? Because JB has made people around the world jump for joy for more than 15 years now - literally! All of this is thanks to our team of designers, developers and logistic staff. They supply unique inflatable attractions in a grand way! This means our customers are assured of our professional service and delivery.
