Safety in the water

For years, JB has designed and manufactured inflatable water attractions that can safely be used by everyone. We will provide an approved inspection certificate (NEN-EN 15649:2009), a blower, a log and a clear user manual for all attractions. Each attraction comes with several anchor points that have to be fastened with appropriate anchoring materials to ensure the object stays in place. A safe start to the fun!

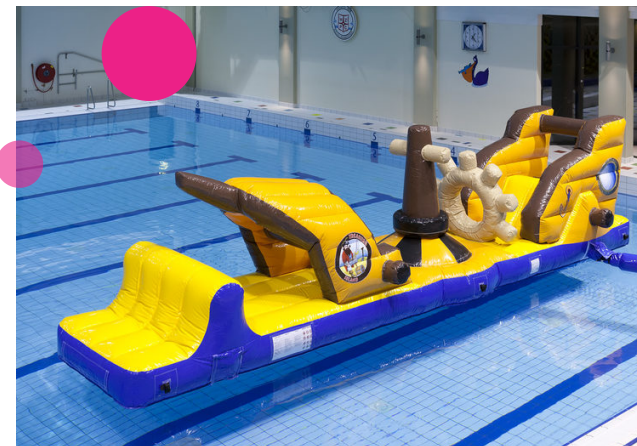

JB's premium quality

All water games we offer are made of strong, high frequency welded PVC material, weighing 900 gr/m2. This is how we guarantee the quality of our products. The material has a useful protective coating that is resistant to chlorine and suitable for use in open bodies of water. This means you will purchase a durable product that is easy to keep clean to boot. The pirate ship obstacle course comes with a 1-year warranty.
