Safe play

For years, JB has designed and manufactured unique inflatable attractions that can be used safely, because safety is our top priority. We provide an approved inspection certificate (NEN-EN 15649:2009), a blower, a Bravo air pressure gauge, a log book and a clear user manual for all water games. Every attraction comes with several anchor points that have to be fastened with appropriate anchoring materials to ensure the object stays in place. We supply everything you need in a complete package for a fantastic experience!

JB stands for premium quality

In order to guarantee quality, we use high-frequency welded PVC material, weighing 900 gr/m2. The material we use is strong and colorfast. In addition, the material is chlorine-resistant and suitable for use in water. This means you will be purchasing a durable product that can be enjoyed for many years to come. The Pirate Slide comes with a 1-year warranty.
