

Balloon cake

Balloon release cake: this is a festive as it gets

Whether you are doing it for your customer's kids 'party, an opening or open day for a business, neighborhood party, a sports tournament, trade fair or any other event: releasing balloons (for instance as a competition) is just that finishing touch to all festivities. And speaking about parties - no party without a cake! This double-walled inflatable cake combines both party requirements: fewer less than 200 helium balloons can be released in one go with this cake. Loading the inflatable... is a piece of cake because of its practical fill opening.

The balloon cake is ready to be enjoyed within 5 minutes

Even if your customer has to set it up all alone, 5 minutes is all it takes. And an easy job at that with the user manual provided. JB would not be JB if we did not supply the cake as a complete package, which means we also conveniently include the blower, anchoring materials and transport bag. In short: preparing this cake is easier than baking an actual one!
